Incarceration in Ohio

Highlight Counties by Urbanicity

Rural

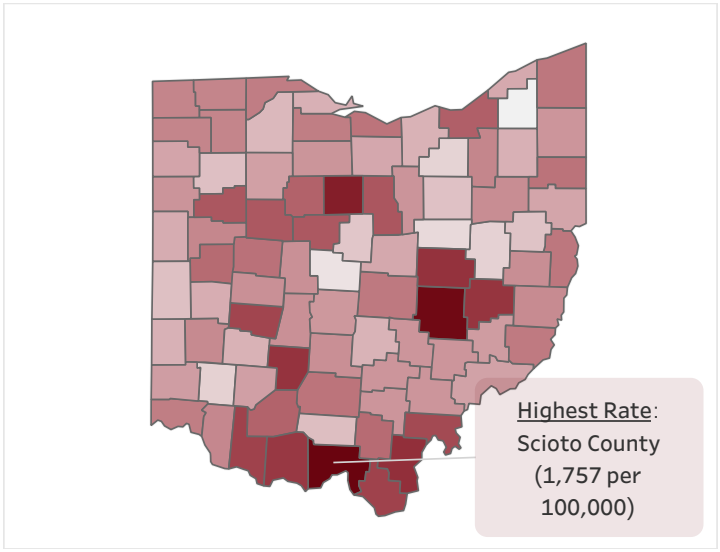

Small/Mid-Size

Suburban

Urban

This dashboard shows county-level incarceration rates in Ohio using data from the Vera Institute of Justice. Rates are per 100,000 residents, allowing comparisons across counties of different sizes. The first two maps display the most recently available county-level prison and jail population rates, highlighting variations across the state, with a deepening shade of red indicating higher incarceration rates. The stacked area chart tracks jail and prison rates over time for each county, with a reference band marking the Great Recession (2007–2009) to show how economic shifts intersect with incarceration trends. The urbanicity highlighter allows users to filter counties by rural, suburban, and urban classifications, making it easier to spot geographic patterns.
Source: Vera Institute of Justice, *Incarceration Trends Dataset* (1970–2024).

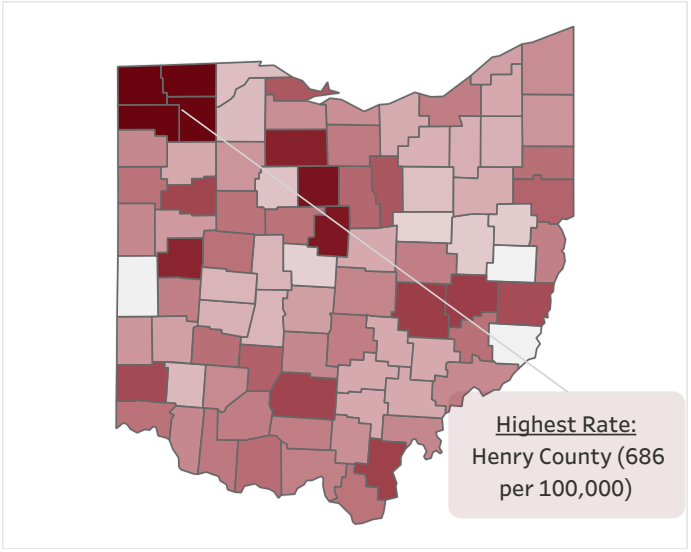

County-Level Prison Incarceration (2019)

Prison population rate (per 100,000)

148 1,757

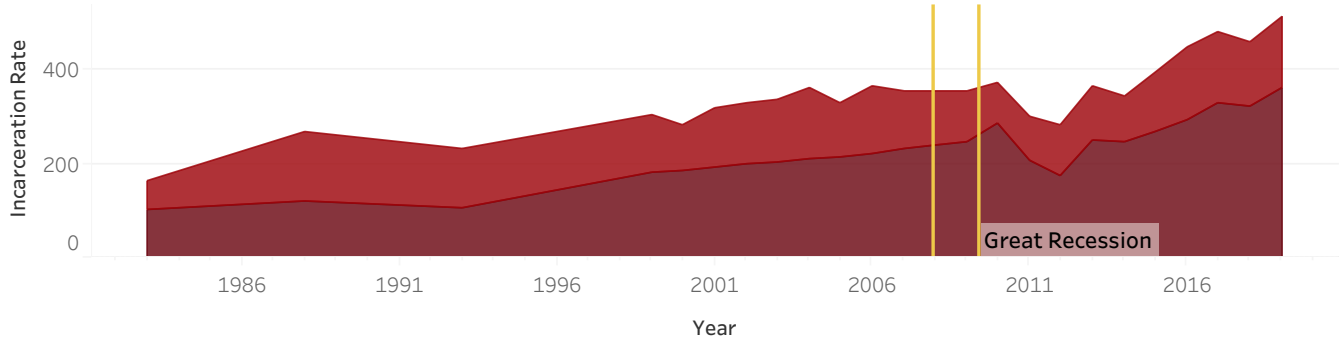

County-Level Jail Incarceration (2019)

Jail population rate (per 100,000)

88.9 686.1

Incarceration Rates Over Time

Incarceration rates per 100,000 residents. Rates are shown for the years in which all countries have complete, non-mising, data. The reference band indicates the span of the Great Recession (December 2007 - June 2009). NOTE: to make use of the urbanicty highlighter, click one of the four bars to highlight counties that fall under that classification.
